## EXPERIENCE

### **ThingTech**, Atlanta, GA — *UI Developer*

JANUARY 2016 - PRESENT

Creating web applications specializing in enterprise asset tracking and management solutions.

Web Stacks include React JS (with Redux) or AngularJS, and PostgreSQL with Salesforce integration.

Designed graphics and mockups for marketing and sales with Sketch, Photoshop, and Illustrator.

Redesigned the core product applications, creating a cohesive visual story across the entire platform.

### **Sam Flax Art & Design**, Atlanta, GA — *Custom Framing Consultant*

FEBRUARY 2011 - SEPTEMBER 2015

Negotiated high-end sales with customers on a daily basis; created a draft website for the framing department; key member in establishing a custom printing department through on site visits and product research.

6-time Employee of the Month and 2012 Employee of the Year

Worked with local nonprofits to frame artwork for charity auctions.

### **Michales Arts & Crafts**, Tallahassee, FL and Atlanta, GA — *Custom Framer*

AUGUST 2009 - FEBRUARY 2011

One-on-one customer sales in framing; cashier; routinely performed stock replenishment; helped customers locate products in the store; educated customers and fellow employees on use of store merchandise.

Customer service award received in Tallahassee, FL.

## EDUCATION

### **The Iron Yard**, Atlanta, GA — *Front End Engineering*

SEPTEMBER 2015 - DECEMBER 2015

Completed a 12-week immersive course in Front End Engineering, acquiring relevant skills in JavaScript, HTML5, and CSS3.

Worked with fellow Front End, Back End, and Mobile iOS students, to build web applications from the ground up.

Learned key concepts behind the code we wrote, enabling us to branch out and pick up coding languages on our own.

### **Florida State University**, Tallahassee, FL — *Bachelor of Fine Arts in Studio Art*

AUGUST 2006 - AUGUST 2010, GPA 3.5

Awarded the Ed Love Sculpture Award and the McLachlin Memorial Endowed Scholarship for excellence in fine arts.
